When? 22 October at 7 p.m.

The film has English and Danish subtitles.

We will offer exotic snacks after the film. Drinks can be bought in the bar.

Buy tickets here :

“Diagnosing Psychiatry” combines a personal story with an examination of today’s psychiatry. Director Anahi Testa Pedersen follows Peter Gøtzsche over a period of four years, where she gets to know Peter professionally but also develops a friendship with him. The film takes us on Anahi’s journey with Peter, who criticises the drug industry and the use of psychiatric drugs.
