@cochranecollab You have asked Gøtzsche to distinguish his personal views from that of Cochrane regarding psychotropics. Yet, he uses Cochrane affiliation when inviting for deprescribing symposium, alongside IIPDW.com (!), and cochrane-email for sign-up. Comments?

Leder af **Nordic Cochrane** Peter Gøtzsche har problemer med at adskille hvad han mener privat og hvad **Cochrane** mener. Han anvender hyppigt brevpapir og e-mail fra **Cochrane** til egne arrangementer. Er det virkelig det Folketinget giver penge til? #dkpol #sundpol

Ja, dels er ledelsen af **Cochrane Nordic** med til at ødelægge tilliden til **Cochrane**. Og dels er det uacceptabelt hvis offentlige midler går til at finansiere privat bogsalg og foredrag.

Foolish #Fairfax opinion piece attacking me for encouraging women to have mammograms 😬. At NO POINT did I give medical advice. All my stats came from @BreastScreenNSW & my BC specialist told me she'd like women 40+
